

Feedlot Permit Application
 LA CROSSE COUNTY DEPARTMENT OF LAND CONSERVATION
 400 4TH St. N, Room 3270
 La Crosse, WI 54601
 608-785-9867

The undersigned is applying for a permit for a new or expanded feedlot. The applicant agrees that all Best Management Practices designs and procedures shall be in accordance with the La Crosse County Animal Waste Management Ordinance, and other applicable regulations. Submit this application, the Feedlot Plan, Animal Unit Calculation Sheet, and any applicable feedlot permit fees to the Department of Land Conservation for review and acceptance. See below for permit fees.

FEEDLOT PLAN REQUIREMENTS

Feedlot plans must include the following information prior to review by the Department.

- 1. A completed application form, including the necessary information and signatures.**
- 2. Animal Unit Calculation Sheet including the number and types of animals.**
- 3. A site plan drawn at a scale of not less than (1) inch equals 100 feet of the feedlot location including identification of all buildings, proposed construction, surface flow patterns, navigable and intermittent streams, and wetlands or water bodies within five hundred (500) feet of the proposed impoundment.**
- 4. Proposed construction and structural details of the proposed feedlot system, including but not limited to dimensions, cross sections, concrete thickness, reinforcement schedules, and etc.**
- 5. The location of wells within three hundred (300) feet of the feedlot.**
- 6. Provisions for drainage and control of runoff to prevent pollution of surface water and groundwater such that the runoff meets the requirements of 23.06 of the Animal Waste Management Ordinance.**
- 7. The location and type of vegetation / groundcover between feedlot and adjacent water bodies.**
- 8. The scale of the drawing and the north arrow.**
- 9. A time schedule for construction.**
- 10. Location and type of Best Management Practices and any documentation necessary for design specifications.**
- 11. An LCC approved “Operation and Maintenance Plan” for the feedlot and any associated BMP’s.**
- 12. Evidence including, but not limited to manure production estimates and soil samples that sufficient land is available to spread manure according to UW recommendations. A LCC approved Manure Management Plan is recommended.**

Note: This list may not be all-inclusive for every site. Additional information may be required. Please refer to the La Crosse County Animal Waste Management Ordinance for more information.
