

CULTURE OF HEALTH

This Culture of Health video was part of an application that was submitted for *The Robert Wood Johnson Foundation (RWJF) Culture of Health Prize*. This prize recognizes communities that are creating powerful partnerships and deep commitments to enable all in our diverse society to lead healthy lives now and for generations to come. The Prize is awarded annually by RWJF to honor communities that are working to build a Culture of Health by implementing solutions that give everyone the opportunity for a healthy life. This application was a community effort led by the La Crosse County Medical Health Science Consortium. (The La Crosse County Health Department was one of the partners that assisted with the application). While the application was successful in making it to the Phase II application process; it was not selected for the final site visit phase.
