

Construction Update: Welcome to the New Landfill Site Entrance

The Solid Waste Department is in the process of completing the re-design of our entrance from Highway 16. The new entrance improves safety and will help traffic flow more efficiently. This project was completed at the same time the City of La Crosse extended Berlin Drive to provide access to nearby city-owned property that will be developed in the future.

This diagram illustrates the new entrance design. Some minor modifications are still being completed. When you arrive at the Landfill site, please check in with Department staff at the office, the HHM facility or the Scale House for further instructions on which route you should follow before proceeding to your intended location.

If you have questions regarding our new Landfill entrance please call the Solid Waste Department at 608-785-9572, visit our website www.lacrossecounty.org/SolidWaste, or our Facebook page www.facebook.com/lacrossecountysolidwaste.
