Project Costs: Project costs are listed in thousands (x \$1,000) by project component: preliminary engineering (PE), right-of-way purchase (ROW or RW), utilities (UTL), construction (CONST), planning study or other transportation related activity (PLAN), operating assistance (OA), capital expense (CAPT).

Source of Funds: Project funding is listed as a program code as shown in Table 2. Because some projects are funded from a variety of sources, the major source is listed for each project.

TIP Grouped Projects List

The Grouped Projects List (Table 4) includes projects that are grouped under a single project number in the TIP Project List. These projects have little to no environmental impact, are not regionally significant, and, and can be processed quickly through an administrative modification. Grouped project types currently include bridge maintenance, emergency repair, and existing TAP projects. Because we now add new TAP projects to the main TIP projects list and not to the existing grouped list, the TAP group is slowly being phased out as projects are completed and removed from the TIP.

METROPOLITAN TRANSPORTATION PLAN - PHASE 1 ENGAGEMENT

Engagement Summary (September – December 2024)

The La Crosse Area Planning Committee (LAPC) is updating its Metropolitan Transportation Plan (MTP) to better serve our community. The MTP will plan transportation investments to make it easier for everyone to get where they need to go.

How Does Community Engagement Inform the MTP Update?

In-person and online engagement activities asked residents across the region to share about how they travel in the La Crosse Area. Engagement activities sought community input to identify issues and barriers they experience when walking, biking, taking transit, and driving.

What Engagement Has Occurred?

LAPC staff offered a variety of engagement opportunities and connected with community in the places they live, work and play. Phase 1 engagement included an online survey and interactive comment map and eight events that connected with more than 260 residents. In-person engagement shared information about the MTP update and gathered community feedback via a comment map, marble activity to identify top concerns and a family-friendly madlib activity about transportation in the Driftless region.

Online Engagement

Community survey recieved more than 520 responses asked more than 20 questions. An online comment map identifed more than 215 concerns

Engage at Community Events

METROPOLITAN TRANSPORTATION PLAN - PHASE 1 ENGAGEMENT

What transportation issues would you address to improve your daily life?

 Using 10 marbles (each marble is worth \$10), how would you spend \$100 to improve transportation?

1	AVAILABILITY OF PUBLIC TRANSIT
2	CONDITIONS OF STREETS
3	AVAILABILITY OF BIKE PATHS
4	NEIGHBORHOOD TRAFFIC SAFETY
5	TRAFFIC & INTERSECTION SAFETY
6	AVAILABILITY OF SIDEWALKS & CROSSWALKS
7	MAINTENANCE (I.E., SNOW REMOVAL)
8	PARKING AVAILABILITY
9	CONGESTION & TRAFFIC FLOW
10	ELECTRIC VEHICLE (EV) INFRASTRUCTURE

"Please add bus stops closer to our homes in areas with multi-family complexes"

"The most important transportation need in our region today is with respect to traffic safety and walkability of our neighborhoods.."

"Roads fixed, more bike lanes, better paths for pedestrians."

"More public transport! More buses going on more routes. There are a lot of places that aren't reachable by buses."
