If fishing is your game, Goose Island is the place for you. Ask at the camp store about hot spots and what they're hitting on. The backwaters of the Mississippi are uniquely beautiful.

Wildlife abounds around Goose Island. Here a group of deer gather during an early morning feeding. Eagles, ducks, geese and egrets are common as are fox, beaver, raccoon & muskrats.

When we say modern restrooms, we really mean it. This is our newest of three. Coin operated showers and flush toilets— We make every effort to keep them all immaculately clean.

Our beach and playground area provides fun for all on a sandy oasis.
