

Monthly Pathways Update 07/01/2024

- Initial data from the Pathways to Housing list, along with a year one timeline for the plan, is available on the County's Pathways Home website: [Homelessness Plan \(lacrossecounty.org\)](https://lacrossecounty.org). Starting in July, updates on plan progress will be made available monthly on the website. More frequent updates will be posted on city and county social media platforms.
- Homeless outreach efforts have increased to 3 times per week. The team will go anywhere and everywhere within the city limits to connect with people experiencing homelessness.
- Pathways Home is a comprehensive plan to achieve functional zero homelessness. It is not a single program but a collaborative effort between the city, county and numerous community partners who combine efforts and resources to help people achieve permanent housing. The Pathways to Housing list helps us know all people experiencing homelessness in the city and their housing needs.
- The City of La Crosse launched a request for information seeking partners to bring innovative ideas for increasing capacity of specialized housing. The city is seeking long-term, sustainable solutions for housing development. An information session will be held virtually Monday, July 22 at 11 am.
